

October 9 - 11, 2015

OVERVIEW

Kent Hack Enough is an annual student-run hackathon at Kent State University hosted by HacKSU. Students from all over the country come to Kent, OH to work for 36 hours to build a technical project such as an app, website, or hardware hack. With students from Ohio State University, Case Western Reserve University, and as far as Rochester Institute of Technology, last year's event doubled the previous year's attendance from 75 to 150 students. We hope to continue this growth and host 250 students this October. Come be a part of something amazing.

WHY SPONSOR?

Sponsoring a hackathon is a great way to get access to the industry's top and most passionate talent. Hackathons are replacing career fairs and other traditional methods of recruiting and marketing. Specific benefits are listed on the next two pages.

OUR MOST SUCCESSFUL SPONSORS:

1. Bring mentors and engineers. Technical mentors can connect more deeply with our attendees and often leave a better impression than recruiters. A mentor who helps fix an attendee's project in the middle of the night can make a big impact on how that student views the company.

2. Send swag. Swag can include t-shirts, stickers, pens, etc., and allow for an easy way to build brand recognition.
